Texts and Supplemental Materials

Texts:

Adler: *The Study of Orchestration*, 3rd edition.
Cope: *New Directions in Music*, 6th edition.

Materials:

100 mb Zip disk or USB drive.
Manuscript book (preferred), or staff paper.

Expectations and Goals

Since you are registered for section 004, you will have a weekly, one-hour private lesson; you should spend 2 to 4 hours daily preparing for your lesson. I expect you to complete at least one large-scale work for large ensemble or several compositions of smaller scale. Regular use of the computer lab or your own computer as part of the compositional process is strongly encouraged; completed works should be scored using Finale or Sibelius notation software. Public performance of your compositions is also strongly encouraged.

Grading

Your grade will be determined by considering the following factors: attendance, regular weekly progress and preparation, and successful completion of at least one composition (or equivalent progress on a longer work).

Attendance Policy

You are expected to attend every lesson. If you are unable to attend a lesson at the regularly scheduled time you should call or e-mail to give advanced notice and to schedule a make-up lesson. Each unexcused absence will lower your final grade by one letter.
