Math 3702 Syllabus, Fall 2009

Instructor: Parwani
Office: OM 3351
Hours: MW 1:00PM to 2:00PM, 3:00PM to 4:00PM, or by appointment
Phone: (217) 581 7528
Email: kparwani@eiu.edu

Textbook: *Mathematical Statistics with Applications*, Miller and Miller, 5th edition. We will essentially cover chapters 5 through 8 and other material on Statistics as time permits.

Grading: There will quizzes every week, two exams, and a (comprehensive) final. The grade distribution is as follows.

Quizzes and HW	25% (lowest scores will be dropped)
Exam 1	25%
Exam 2	25%
Final	25%

The class grade will be assigned following the standard scale—A for 90% and above, B for the range 80%–90%,....

This is a tentative grading scale. Any changes will be announced well in advance of the final.

Homework: A lot of homework will be assigned. Homework will not be collected/graded. However, students are expected to do all of this homework. The only way to be successful in this class is to work out many many problems. There will homework assignments through WebAssign which will account for 10% (out of the 25% for Quizzes and HW) of your grade.

Calculators: The use of calculators on quizzes and exams is prohibited.

Attendance: There is no attendance policy. However, you must show up to take the exams and quizzes. There are no make-up quizzes and exams.
